

Flash Flood Country
Washes and narrow canyons are subject to sudden, unexpected flash flooding. It may be sunny where you are, but a distant storm can dump rain upstream, sending a wall of water rushing down a normally dry wash or canyon. NEVER ENTER WASHES OR NARROW CANYONS WHEN IT IS RAINING OR THREATENING TO RAIN.

A permit is required from Bureau of Land Management (Monticello office) for San Juan River trips.

All park lands north of this line require backcountry permits, which are issued by Canyonlands NP. Special regulations apply.

Glen Canyon National Recreation Area is a fee area.

Do not use this map for navigation. Marinas and visitor centers sell navigational maps. Only Lake Powell's main channel is marked with navigational aids.

Most unpaved roads require a 4-wheel-drive vehicle. Off-road travel is prohibited. Inquire locally about road conditions; check with a ranger.

- Overlook
- Trail
- Buoy numbers
- Lake levels: dark blue is 3600 feet, light blue is 3700 feet
- Ranger station
- Restaurant
- Lodging
- Campground
- Primitive campground
- Marina
- Floating dump station/restroom (location depends on lake level)
- Boat launch (availability depends on lake level)
